## President's Table

Note to Readers: This issue of Morsels is dedicated to identifying and reviewing the resources available to our customers. These resources are used differently by different customers and most likely not all features and capabilities will be used by any one customer. Understand we are here to serve you and that your support and feedback is extremely important to us. We look forward to hearing from you with your thoughts and ideas.

As we go to press with this issue of Morsels, we were just notified by FedEx that we are one of the finalists for the Fed Ex Business Grant contest that has been ongoing at FedEx. Thank you for your support.

### **Michelle Tayler, MagicKitchen.com President, is now a Registered Dietitian**

When you take a bite of your favorite MagicKitchen.com meal, you're probably thinking about how good it tastes, appreciate the fact that it's healthy, and that it only took a couple minutes to prepare. Enjoying well-made food is a satisfying feeling, but there's a lot of behind-the-scenes work that goes into making every mouth-watering meal.

At MagicKitchen.com, there's one person who puts their stamp of approval on every meal, our president Michelle Tayler. Michelle recently became a Registered Dietitian Nutritionist (RDN) after successfully completing a BS in Nutritional Sciences (Dietetics) at San Jose State University, a 1,200-hour clinical, food service & community internship, and passing the registration exam administered by the national Academy of Nutrition and Dietetics.

Becoming a RDN is a rigorous process that requires a significant investment in resources and the journey doesn't end with passing the exam. The Academy of Nutrition and Dietetics requires RDNs to stay current with health and nutrition-related trends by completing at least 75 hours of continuing education credits every five years. Michelle says "It was really important to me to become an RDN to better understand the role diet plays in getting and keeping people healthy".

**Meal Programs** - Set up an Auto-Ship Meal Program and have us send you or a loved one meals weekly, every two weeks or Monthly without having to place your own orders. There are no added fees, no contracts to sign, and we even cover the delivery! (For regular orders placed every 30 days or less and at \$125 or more).

**Special Deals Page** - Every couple of weeks, we change out the deals on this page, so there is always another meal to choose from at a great discount.

**Seniors' Discount Page** - For seniors, we have a great deal all the time! Use promotional code SN10 to get \$10.00 off any order \$80 and over!

**Custom Developed Web Security Suite** - Back in 2012, the [MagicKitchen.com](http://MagicKitchen.com) website became a target for several foreign credit card hacker groups to verify and test out stolen credit cards. Since we felt that there was no truly secure software that we felt comfortable with we had our technical staff build our security suite. The upside is that we have not had any fraudulently used credit cards on our website since that time but one downside is that we can now only accept orders placed within the United States. This new software suite has saved us thousands of dollars and many headaches dealing with chargebacks and disgruntled credit card owners due to fraudulent charges on their credit cards.
